

Velosi Cares....

Quality Health Safety Environment Policy

Our policy is to provide independent quality management, quality control, inspection, expediting and certification and asset integrity management services for the Oil, Gas, Petrochemical, Water, Power, Mining and General Engineering Industries to exacting standards. Velosi and its subsidiaries place particular emphasis on Quality, Health, Safety, Environment, Reliability, and Competence of its personnel.

The policy is achieved by constantly striving towards the following objectives in all aspects of the company business:

- To provide services in a manner which conforms to the specified and implied requirements of our customers and all applicable regulatory authorities with due regard for quality.
- To ensure our activities are conducted in a safe and efficient manner while protecting the health of its personnel and all interested parties.
- To ensure all our activities are environment friendly.
- Monitoring the service processes in our day-to-day implementation and identifying opportunities for continual improvement by appropriate training thus channelling the improvement measures throughout the operations to enhance the customer satisfaction
- Having a systematic approach to QHSE management to ensure compliance with the law and other legal requirements applicable to the country of the operations , and to achieve continual performance improvement.
- Setting performance targets to facilitate improvements through audit, appraisal and reporting.

....all of us have a role to play

Dr Nabil Jalil - CEO

In Velosi we are committed to:

-  Identifying potential health and safety issues through regular Risk assessments in addition to monitoring the impact of work on the environment in order to reduce pollution and ensure protection and care of both people and the environment.
-  Using materials and energy efficiently to provide and develop services consistent with these aims.
-  Periodically setting and publish a statement of key Quality, Health, Safety and Environmental objectives, and report publicly on performance in these areas.
-  Providing direction, training and supervision to enable employees to meet their obligation to provide quality services and work, safely with due consideration. Including the health and safety of other interested parties including contractors and also the environment impacts.
-  Co-operating fully with relevant enforcement agencies, and work with interested parties to further the understanding and development of quality, health, safety and environmental management and practice.
-  Developing and maintain effective emergency plans, where appropriate, in conjunction with the authorities and emergency services.
-  Making available appropriate resources to implement the policy and to ensure compliance with the policy through a process of education and review. Which includes monitor its operations at group and local level by way of regular audits and reviews.
-  Reviewing the policy and system for continued suitability, on at least an annual basis.

By implementing this policy we have a QHSE outcome of which we can all be proud and above all we create an atmosphere of confidence and responsibility for the benefit of employees and customers."

VELOSI Cares..... And we all have a role to play.
